**About FORWARD:** Founded in 2014 by concerned friends and relatives of young adults with Autism Spectrum Disorder, FORWARD works to address the critical shortage of affordable housing on Cape Cod. FORWARD's mission is to build small-scale housing communities where disabled adults can thrive in a safe and supportive environment. We recently completed our first project, **FORWARD at the Rock**, a supportive residential community in Dennis for 8 Cape Cod adults with autism and related disabilities and we're now embarking on Phase II -- 8 more new forever homes.

## Opening Hearts ♥ Building Homes
